Clowns

I'm uncertain about Heisenberg.
 Story is he took his Mommy
 to Oslo for the Nobel.

(The Can't Find His Socks model).
    Then he dithered, re-

    tarding Hitler's drive
      towards the Bomb.

          How much the Natural,
          how much hatched?
              How like us, the

    measure of man immeasurable
    as particles in time.
